#### PUBLISHER'S NOTICE.

The New Haven Directory, for 1869, (No. 30,) contains about 14,500 names, being an increase of 500 over those of last year. The number of changes of address is 3,013; erasures, 2,912, and 3,414 additions.

As a matter of convenient reference for those interested, we have inserted on page 17, the names of persons who have gone into bank-ruptey in the district of Connecticut during the year 1868. The INCOME List, for 1869, commences at page 19.

The buildings of the city, erected during the past year, are better in character and more numerous than in any former year. Our account of them will be necessarily brief, and perhaps somewhat imperfect.

Of factories, which we account to be the most desirable and important class of buildings, as being the foundation on which most of the others in some sense rest, we have the large manufactory of Mr. Sargent, in Water street, which occupies a space of 200x30 feet; is five stories high, with basement. The Rubber Company's new buildings, two in number, each 135x30 feet; three stories and basement; one building 50x30 feet; one 35x45 feet, all three stories high, situated on Greene and adjoining streets.

The New Haven Spring Co.'s buildings, on Franklin street, are 182 x135 feet, with a wing 35x77 feet; is five stories high, and basement, with French roof. The buildings are occupied by themselves and the American Brush Company. Adjoining the foregoing, on Franklin street, Messrs. Dann have put up a factory 62x61 feet, four stories high, for the purpose of doing carriage woodwork. At the corner of Wooster and Wallace streets, Messrs. Wells & Cruttenden have nearly ready for occupancy a carriage factory 40x80 feet, and four stories high. Messrs. Sault, at the corner of Wallace and Chapel, have erected a foundry 57x100 feet. At Grape Vine Point, the Parshley property has been leased, and Messrs. Bigelow have commenced the making of steam boilers, &c., in the large building made for a carriage factory, and for some years unoccupied. The New Haven Saw Company have built a large factory of wood, near the corner of the Canal Railroad and Bassett street. The New Haven Car Company, at Newhallville, have built a large wooden building for their use in building railroad cars. The factory buildings for some time past unoccupied at the the corner of Grove and High streets, have been, and are now occupied by Mr. B. N. Greene, as a worker of granite. The New York and New Haven Railroad Company have commenced

The New Mayer Directors, for 1869, (No. 26), explains about 14,500 names, being an increase of 500 ever those oblies, year. The number of shappen of address is 3,018; commerce, 4,512, and 5,618 additions.

As a venter of conventent reference for those interested, we have become long-tendency for page 17, the names of persons who have gone take built-raphy in the district of Connection during the point 195%. The latent for the for the connection at page 19.

The buildings of the city, ordered diving the past year, are builded to character and more numerous than in any foreset year. Our account of them will be necessarily brief, and perhaps somewhat

Just sagmi.

Of factoring, which we excount to be the most describe and intertant close of buildings, as being the frequisition on whom mans of the athers in some surest rost, we have the large manufactory of Malargem, it Water street, which excepts a space of rought feet; to fire atomic high, with because . The finthest Company's now buildlarge, two is manufact, such labors feet; these stories and beastout; one building force for an atomic view at three stories bigh, situated on three and stimbing surests.

The New Haven Spring Co.'s buildings, on Franklin'strock, are 182 and becoment, and becoment, with a wing 35x7 feet; is five stories high, and becoment, with Franch reset. The buildings are accepted by shades of an description through the brightest of the first of the farmal formation. Adjoining the brightest, on Franklin above, but the farmal farmal feet, for the princes of dular general woodwork. At the corner of because the farmal reset and Wallers streets, Meson. Walls & Contraction have made from the farmal feet of the farmal for words of the farmal for and four stories along the farmal feet of the farmal for the farmal feet of the farmal formation of the farmal farmal formation of the farmal farmal feet and formation of the farmal farm

and nearly finished their car shop, which is 260x80 feet. The machine shop is 260x60 feet; smith shop, 200x50 feet; paint shop, 130x60 feet, and the Round House, for their engines, 260 feet in diameter, with 40 squares, of which 26 are finished.

The Canal Railroad, Company have made, and are making, a large addition to their wharfage facilities. The Derby Road have built six fine wide bridges, under which their track is to be laid, and all the bridging that will probably ever be required by the city

The city and town have built the Chapel Street Bridge connecting the foot of Chapel street with Grape Vine Point—a most admirable structure.

The finest business building in the city is at the corner of State and Chapel streets, built by the Yale National Bank during the past year. This is probably the most noticeable building in the city, from the beauty of its architectural conception—an edifice alike honoring the city and the builder. The land and structure cost \$115,000. It contains twenty rooms, or offices, besides two splendid offices in the basement. The building also has two elegant stores on State street.

Mr. Boardman, on the opposite corner of State and Chapel, has added two stories and a French roof to his building.

Among the handsome and substantial buildings which are beginning to line Chapel street, not the least noticeable is the "Register Building," which was completed last fall. The stores are occupied by the Messrs. Minors as a crockery warehouse; and the portions of the building not occupied by the publishers of the Register, are devoted to offices.

The Connecticut Savings Bank have put up a splendid marble front building on Church street, for a banking house. It also contains some desirable offices. The cost of the building is about \$40,000.

Mr. Edwin Marble has built three stores, four stories high, on Church street, near George. Mr. Bradley, on Court street, has a fine building in course of erection. There are also a large number on Grand street; one at the corner of Olive and St. John streets. On Howard Avenue a fine large school house has been built.

In dwellings of an expensive character, the Home Insurance Co. have done most. They have erected nineteen four-story brick houses on the continuation of Court street, through to Academy street. The whole number of dwellings to be erected by this company is thirty-three, which will all be first-class. There are seven more in process of erection; and seven more will follow these, which will be located on Olive and Academy streets. This is, by far, the largest number of dwellings ever erected by any one person or corporation in New Haven, and as far as our knowledge extends, in the State. The total cost will be between \$300,000 and \$400,000.

On Orange street, Messrs. Osborne & Franklin and others, have finished a block of six fine houses, four stories high; also Mr. S. E. [Continued on page 537.]

and nearly theired their car shop, which is reduced feet. The machine when is record feet; smith shop, 200x50 feet; paint shop; blessed feet, and the Bound Henre, for their angines, 200 feet to dismedies, with and the Bound Feet and feet shop.

The Canal Stational Company have made, and are making, a large addition to their whatings includies. The Dorby Read have balls six flee wide bridges, under which their truck is to be ind, and all the backeton will arbital star be required by the city

The city and town have built the Chapel Street Bridge connection the foot of Chapel street with Grape Vinc Point—a most whetchie

\_arminosta

The fluest business building in the city is at the surper of from and Chapel access, build by else Yale Malicant Back during the pust tour. This is probable the most vestigated building in the city, their the bounds of its architectural conception—an ediffor alike beneding the city and the building. The building alone are two splandid offices in the insument. The building alone has two elegant stores on frint extent.

Mr. Benedinan, on the opposite corner of Segue and Chaper, has

Among the hundrens and substantial buildings which are beginning to line thanged street, note the less needs substantial of Economic Stallding? Which was completed fast thin. The stores are occapied by the Massers, Minors as a creckery regresses; and see persions of singular and contopied by the publishment of the Economy, are devoted to offer the stores of the Charles.

The Connectiont Savings Bank have put up a splapidel marble front building on Church struct, for a banking hower. It also contains some desirable offices. The cost of the building is about 840,000.

Mr. Edwin Murble has built three searce, feet stories high, on Church street, near George. Mr. Eradley, as Court Street, has a fine building in course of creation. There are also a large number on Grand street; one at the corner of Oliver and St. John street.

## United States and Foreign Countries.

A practice of more than fourteen years, and frequent visits to the Patent Office, has given him a familiarity with every department of, and mode of proceeding at, the Patent Office; which, together with the fact that he now visits Washington semimently to give his personal attention to the interest of his clients, warrants him in the assertion that

#### NO OFFICE IN THE COUNTRY

Is able to offer the same facilities to inventors in securing their inventions by Letters Patent, and particularly to those whose applications have been rejected, an examination of which he will make free of charge.

Preliminary examination, prior to application for patent, made

at the Patent Office at a small charge.

His facilities for procuring Patents in FOREIGN COUNTRIES are unequaled.

Refers to more than one thousand clients for whom he has procured Letters Patent.

patrons of your school. You are permitted to refer to us, in your circulars and catalogues, as

in the study of the languages taught them,—thus demonstrating that your method of teaching is a complete success, and well calculated to advance your pupils rapidly in their studies. Our sons and daughters have made, under your tuition for the past year, most satisfactory progress

to us, that we consider the progress your scholars make in acquiring a speaking knowledge of the languages studied, the crowning merit of your school. We desire to say to you, and shall be most happy to say the same to others who may be referred Yours, truly,

No. 346 Chapel Street, - New Haven Conn

Our facilities for prescenting the business are not excelled by any concern in the State. We are prepared, as all times, to meet the demand for all the various standard and Miscellancous works. We have peculiar advantages for applying Schools and Liberary Institutions with Classic and Elementary works. We are in daily receipt of all New Yeldications as fast as issued from foreign and American authors; and our goods are macked at so low a figure as to reader this enthitishment supplishably the Chespest Book Store in the State.

N. Il—Chantes R. Coax is now forested at our Store, where he would be pleased to neet his many friends.

Respectfully

### INSTRUCTIONS TO KEY HOLDERS.

On the breaking out of a fire, notice should be immediately communicated to the nearest Alarm Box, Keys of which are always in the hands of the Police, and responsible persons in the vicinity of the doxes.

Key holders, upon the discovery or positive information of a fire, wil unlock the box, pull down the slide or hook once, and let go. This gives the desired alarm all over the city, repeating itself five times.

3. All persons giving fire alarms are requested to remain by the box a moment, and if no clicking is heard in the box, pull again; if you still hear no clicking, go to the next nearest box and give the alarm from that.

4. Never signal for a fire seen at a distance. Never touch the hook except to give an alarm of fire. Be sure the box is locked before leaving it. Give an alarm for no cause other than an actual fire. Do not

give an alarm for a chimney.

5. Owners and occupants of buildings are requested to inform themselves of the location of the Signal Boxes near their property, also, the places where the keys are kept. Be sure the alarm is properly given. One single stroke of the City Hall Bell and Engine House Gongs is not given for an alarm of fire.

6. Bell Ringers will see the necessity of being particular to strike the correct number of the box from whence the alarm is given, always to be guided by the City Hall Bell. Second alarms for the same fire will only be given by the Chief Engineer or one of his assistants.

7. Alarms will be sounded on the Fire Bells thus: For box 5, five strokes, 1-1-1-1, with short intervals, and repeating. For box 32, three strokes, 1-1-1, a pause, then two strokes, 1-1, a pause, and repeating. Alarms for other numbers are given in a like manner.

J. MURRAY FAIRCHILD, Sup't.

### CITY ORDINANCE.

A BY-LAW FOR THE PROTECTION OF THE FIRE ALARM TELEGRAPH. Be it ordained by the Court of Common Council of the City of New Haven:

Section 1. That any person or persons who shall wilfully deface, injure or destroy the Fire Alarm Telegraph in this city, or any part thereof, or any of its appurtenances, or shall wilfully interfere with or do anything to the same, so as to prevent or delay the proper and timely use thereof, shall for every such offense forfeit and pay a penalty of not less than twenty, nor more than one hundred doilars for the use of the city, the amount of said penalty to be fixed by the Court having cognizance of the offense.

SEC. 2. Any person who shall open any alarm box connected with the Fire Alarm Telegraph, except by the authority of, or with the keys furnished by the Superintendent of the Fire Alarm Telegraph, shall forfeit and pay therefor a penalty of twenty-five dollars for the use of

the city.

Sec. 3. Suit may be brought for said penalties by complaint and forthwith process, as in ordinary criminal proceedings.

Passed in Court of Common Council, October 6th, A. D. 1868.

3rand total for 1807, \$37,677,379; Increase from 1867, \$2,552,452.

The growth of the city of New Haven during the good year is negreeesbested in its history for any shorten partials. There were erected and completed during the veer, 277 hyddings (exclusive of herest, of which 215 were durillage, 22 stores, and 7 scann factories, in addition to this list, 34 heres were put up, 65 houses

and stores enlarged and added to, and some 50 cellars dug and frames erected upon them. The latter are in rapid process of completion, and are about all finished. The total number of buildings of all classes reported October 1, 1867, was The number entered on the list of last October was 5.963. classified as follows: Dwelling houses, 5,353; stores, 636; manufactories, 251; total, 6,240, showing an increase, as already stated, of 277 in favor of 1868. It is estimated that, adding the buildings, which, since the 1st of October, have been completed and projected, the list will crowd 500 pretty hard. Among the more noticeable buildings completed during the year, the following deserve special mention: New church (German Baptist), corner of Broad and George streets; the West church (Congregational), corner of Howard avenue and Columbus street; new school-house, on Howard avenue; Germania Hall, Cherry street; Episcopalian widows' home, two dwellings and a chapel in George street, erected by Joseph E. Sheffield, Esq.; Connecticut savings bank, Church street; the gas company's building, St. John street; Sargent & Co,'s new building in Water street; new Catholic church, Fair Haven; the Yale national bank building, corner of State and Chapel streets.

The average increase in the value of real estate in the city during the year was about 25 per cent. In some sections of the city

the increase was as high as 50 per cent.

In addition to the property that is subject to taxation, there is property belonging to the colored residents of the city which is valued at \$150,000. This property, by a law passed 1844, is untaxable.—Palladium.

## LITERARY INSTITUTIONS.

#### Yale College.

Commencement, Thursday, July 18. Fall vacation eight weeks from Commencement. Winter vacation of two weeks, from Tuesday before Christmas to Wednesday after New Year. Spring vacation from second Tuesday of April to first Wednesday of May.

# Collegiate and Commercial Institute. Wooster Square.

The session will begin Sept. 13.

The regular course in the department preparatory to Yale College, occupies three years; but full opportunity is allowed to those who can prepare more rapidly.

There are special courses arranged for those who are to enter the Scientific Schools, and for those who are to follow business pursuits.

Parents will find, in the instruction given in Military Drilling, Gymnastics, Swimming, etc., and in the ample grounds for out-door games, under careful supervision, just the advantages for physical training and vigor, which boys in cities need.

The Boarding Department is designed for pupils who do not reside with near relatives in New Haven, and to secure to them those family advantages, and that paternal care and moral and religious discipline which their age so obviously demands, and without which so many are ruined, physically and morally, while ostensibly pursuing their studies in schools and colleges.

#### ADMISSION OF SCHOLARS.

The Public Schools are free only to children whose parents or guardians reside in the District.

The regular time for the admission of Scholars into the Public Schools

is at the beginning of the School year, in May.

After the beginning of the school year, any applicants for admission may apply to the Secretary of the Board of Education, who will give a card of admission to some particular school; and in case there is no vacancy in the proper grade of that school, the applicant's name will be entered by the Principal upon a Register of applications, and the scholars whose names are thus recorded will be entitled to seats, (as vacancies occur,) according to the order of time in which they applied.

Inquiries about the Public Schools may be made every morning from 8 to 10 o'clock, 1214 to 1 and 4 to 5 o'clock, at the office of the Board of Education, No. 14 City Hall, Church street.

The Secretary can be found in the office Monday, Wednesday and

#### [Continued from page 8.]

Merwin, a fine two story house. Mr. A. J. Ramsdell, on the corner of Bradley and Orange streets, has built a fine house, two story, stucco and French roof. Mr. Newgeon, for Messrs. Armstrong, has a block of four brick houses; and Mr. Holt has two fine wooden houses adjoining the last. The largest, and perhaps the finest, dwelling house in the city, belonging to Mr. Davies, on Prospect street, was finished last year: also a fine dwelling of Mrs. Skinner's on the same street. Mr. Alden, on Wall street, has two very desirable new brick houses. Mr. Flage has two on Bradley street. Mr. Larkins has a fine brick block of six four story houses on Whalley avenue, and Messrs, Galpin, Lincoln, Sperry, Russell, and others, on Whalley avenue, have built fine houses the past year. Messrs. Hine & Baldwin, on Dwight street, have a block of four brick houses unfinished. Charles Winship, on York Square Place, has built two fine blocks, one of five houses, and one of four, all of them three stories high. On York street, near Chapel, Mr. Dickerman has finished a fine block of five or six houses. Dr. Rodman and others are building on Chapel street, between High and York, three fine brick houses, parti-colored stone front; and Mr. Newgeon is building on the corner of Hubbard and Sylvan avenue a block of three fine brick houses.

The most princely of all the buildings in the city, as it possesses the sacred interest of noble charity, is the Home for the Aged Women of Trinity Parish, erected at the sole cost of Joseph E. Sheffield, Esq. The gift embraces the Home, Trinity Chapel, and Parish School. The Home is complete in its appointments, and has every convenience for the care and comfort of its inmates. First of all, the poor and infirm women of the parish are received within its fold, and afterwards others, under proper restrictions and conditions. Its accommodations are for twenty-five persons. The arrangements of the Chapel are marked by extreme simplicity, and can accommodate about three hundred persons. A congregation will be gathered by a chaplain. who will do missionary work in the neighborhood. It is expected services will be held regularly. The Parish School has been in existence many years. The school-room is large, light and well ventilated. The basement room is designed for classes. apartments in the building for teachers and for the chaplain of the institution. The buildings were erected at a cost of over \$100,000. The property, with the lot, is valued at \$120,000.

In the Second Ward, we think there have been the most buildings in number put up—homes of working men. Some ten houses on Grape Vine Point have also been put up. Still, there is more call for and need of houses of this character. Houses that will rent from \$150 to \$250 are needed very much.

The building formerly occupied by the Yale National Bank, on State street, is being remodeled, and will be converted into stores.

First of all the acad and the acad and the other of the constant of the parish are academic of the city of the academic of the city o

In the Second Ward, we think there have been the or a burding in number put up-house of working mean. Some ten inches an Grape Vine Point have also been put up. Saill, therein a core will the and need of house of this character. House, this will true then plant to \$500 are transled or the character.

The building formerly economies by the Yale Yale Yalestonal Pents, on State street, is being remodeled, and will be expressed into store.

The old stone house, at the corner of George and Meadow streets, which has for years been looked upon by our young population as an "haunted house," is being made into stores by Charles Katsch.

Factories are gathering into the Fifth Ward. The best houses have gone up in Orange street and Whalley Avenue. Whalley Avenue is rapidly coming to be, what it must eventually be, from its width and length—the noblest avenue leading out of the city; while Chapel street on the one hand, and Dixwell Avenue on the other, must follow close after it.

There has been considerable activity in the sale of building lots on Grape Vine Point, and on Howard Avenue, the past year. Messrs. Stone on State street, and Blatchley on the left of Grand street, beyond Barnsville Bridge, have laid out extensive grounds for building purposes, on the easterly side of the town; while Messrs. Sheldon, Cowles and Bishop, have laid out the Gregory Place of thirty-two acres in fine single lots, suitable for a good class of houses. Many new streets in the western part of the town have been opened, extended and widened. The town presents every appearance of a fine growth.

As has been before stated, we have been obliged to condense the account of the prosperity of our city during the past year, but sufficient has been given to show how grandly the city is growing.

In conclusion, it is our pleasure to tender our thanks to the merchants and others of New Haven, for the patronage and good will they have so kindly extended to us by their favors, which will be found elsewhere, and which favors we have endeavored to make as attractive and beautiful as possible, in the short space of time alloted for the publication of a work of this kind. We trust they will be abundantly rewarded by an increased patronage of the good people of our city.

We commend our volume, with all its imperfections—for it would be egotism in any of us to claim perfectness—to the attention and patronage of the public.
